*A wood guard is not
 always an adequate
 deterrent to predators!*

PROTECT:

- ✓ chickadees
- ✓ wrens
- ✓ woodpeckers
- ✓ bluebirds
- ✓ nuthatches
- ✓ and more!

The Growing World of Backyard Birding

Photographing, feeding, housing and protecting songbirds are the most popular household outdoor activities in America, second only to gardening. It has been estimated that 35% to 45% of US backyards have become extensions of the living room, incorporating this area into a wildlife habitat for birds and children alike. Today, the loss of natural nesting sites has created the need for protected birdhouses to help sustain this habitat.
